ARIA TRADING BRIDGE

COMPANY PROFILE

ARIA is an international trade company based in Sydney, Australia. We specialize in the import & export of high-quality agricultural products, food, and beverages from Australia and around the world.

Connecting to global markets: We connect businesses and consumers with the finest food and agricultural products, helping them expand their reach and access new markets.

Our focus on Australian products: We are proud to promote Australian agricultural products and food & beverage companies to the world. We leverage our strong relationships with Australian producers and exporters to deliver the best products to our international customers.

Global sourcing: Source high-quality food and agricultural products from other countries. This allows us to offer a wider variety of products to our customers and meet their specific needs.

DATES

Mazafati Dates

Mazafati or Mozafati dates are a type of Iranian date, and are also commonly known as Bam date, Rotab Date, and Kimia Date. Mozafati Dates are some of the best selling dates in the world, and are available in two types; fresh and semi fresh.

Kaloteh Dates

Katoteh is a type of fresh date, similar to the Mazafati date. They have a typical shelf life of 12-18 months, and are soft in texture and sweet in taste, and have a larger size.

Rabbi Dates

Rabbi dates are semi soft, a dark brown colour and longer, slimmer size. Rabbi dates have a moisture level of 15%, which allows them to be stored at room temperature for one year.

DATES

Zahedi Dates

The Zahedi date is a wet date with a yellowish colour and a low sugar content, making it ideal for diabetes patients. The date is available as a wet and dry date.

Piarom Dates

Pirom dates or Maryami dates are a type of Iranian semi-dry date. This date has a moisture level of less than 15%, allowing it to be stored at room temperature for over a year.
